## **Title I Parent & Family Engagement Policy**

### **BACKGROUND**

Section 1116 of the Elementary Secondary Education Act (ESEA) requires the involvement of parents, families, and key community members of participating children in the design and implementation of Title I projects. A local educational agency (LEA) may receive funds under this part only if such agency implements programs, activities, and procedures for the involvement of these stakeholders in programs assisted under this part consistent with this section. Such programs, activities, and procedures shall be planned and implemented with meaningful consultation with parents and guardians, extended family members, and community members of participating children.

### **PURPOSE**

Decades of research has shown that when schools work together with families to support learning, children are inclined to succeed not just in school but throughout life. Wayne STEM Academy believes that learning can best take place when there is shared effort, interest, and commitment among students, parents, extended family members, community members, and staff. The goal of this Parent and Family Engagement Plan is to support in a more consistent and effective manner those things already in practice, as well as to generate new ways of strengthening the partnership between school and home.

HOW Wayne STEM Academy...

***(A) involves parents and family members in jointly developing the consolidated application and the support and improvement plans for the school***

We consult parents, family members, and community members in an organized, ongoing, and timely way for the improvement of the school, its plans and policies, and its programs; specifically, we include these critical stakeholders in the planning, review, and evaluation of programs and constantly strive to improve programs based on the results of these discussions/meetings. Each year, we evaluate the content and effectiveness of our policy with input from parents, family members, and community members. We maintain on file at the school, at a minimum: copies of the surveys on which parent and family input is specifically solicited; a copy of this policy; and proof that this policy has been made accessible to all families (i.e. website, etc.).

***(B) coordinates, provides technical assistance and other support necessary to assist and build the capacity of school staff and stakeholders in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance, which may include meaningful consultation with employers, business leaders, and philanthropic organizations, or individuals with expertise in effectively engaging parents and family members in education;***

We educate school personnel in the value and utility of contributions from parents, family members, and community members. We emphasize how to reach out to, communicate with, and build ties with these critical stakeholders as equal partners in the process of improving student achievement. All staff

members commit to valuing parents, family members, community members, and students as members of an extended team and family whose goal is to provide each student with the skills and habits necessary for success in high school, college, and life. All new staff members attend school-based training on how to build powerful relationships with parents, family members, and community members in order to establish an educational partnership. Staff members are educated in the use of Wayne STEM Academy's mechanisms for maintaining ongoing parental contact (i.e. student folders, phone calls, report card meetings, enrollment meetings, etc.).

***(C) coordinates and integrates parent and family engagement strategies under this part with parent and family engagement strategies, to the extent feasible and appropriate, with other relevant Federal, State, and local laws and programs;***

To the extent practicable, Wayne STEM Academy coordinates and integrates the parent and family strategies named under this part with other relevant Federal, State and local laws and programs.

***(D) conducts, with the meaningful involvement of parents and family members, an annual evaluation of the content and effectiveness of the parent and family engagement policy in improving the academic quality of the school, including identifying—***

***(i) barriers to greater participation by parents in activities authorized by this section (with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background);***

***(ii) the needs of parents and family members to assist with the learning of their children, including engaging with school personnel and teachers; and***

***(iii) strategies to support successful school and family interactions;***

Feedback from our parents, family members, and community members on school-wide program performance is specifically solicited each year through parent surveys, which are sent home to families in the elementary schools. Families have opportunities to comment on school-wide program performance through our social media messages, "Wildcat Chats," Squadron Meetings, and through constant contact with all teachers and staff via email, cell phone, and/or face-to-face meetings. As a result, these key stakeholders have multiple opportunities to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children.

We provide opportunities for parents, family members, and community members with limited English proficiency, with disabilities, and/or with migratory children to communicate fully with our staff. As needed, stakeholders are provided information and school reports in a format and, to the extent practicable, in a language they can understand.

Full participation opportunities are provided for parents and families with limited English proficiency, parents or family members with disabilities, and parents/guardians of migratory children. All parents of students in these categories are encouraged to observe their child in classes and work with staff to

stimulate their student's academic growth. Regular IEP meetings also allow the parents and family members of identified EC students to get information and school reports in a format and, to the extent practicable, in a language they can also understand.

In addition to explicitly soliciting feedback from our parents and family members, Wayne STEM Academy hosts several types of events throughout the year to which families are asked to attend to support them in the role they play in supporting their students' successful school experience. We offer a flexible number of meetings and parent-teacher conferences to ensure that all parents, family members, and other community members have the opportunity to participate, the ultimate goal of which is improving the achievement of all our children. We provide opportunity to meet with elementary school parents at the end of each quarter. These meetings include the child's teachers and begin as early as 7:00 a.m. and continue until 4:30 p.m. Spanish translators are provided as needed. This allows parents, families, and community members, including those with limited English proficiency and/or disabilities, an equal opportunity to meet with teachers without creating disruption in their workplace.

Beyond our initial enrollment meetings, Wayne STEM Academy holds annual Enrollment Informational Meetings, Summer Orientation & Placement days, Back to School Nights, and grade level meetings and individual parent/family meetings throughout the year to review the school's programs, policies, academic standards, assessments, promotional standards, and expectations for student achievement. After these meetings, all parents and family members continue to be informed about curriculum and programming updates throughout the year through newsletters, social media, and our digital curriculum. All of these documents are translated into Spanish as needed. We also notify parents of and clearly post on the Wayne STEM Academy website our most recent North Carolina School Report Card data.

Wayne STEM Academy provides parents, family members, and community members with assistance on understanding state academic content standards, the North Carolina Accountability Program, state and local assessments, and student academic performance standards, as well as ways to monitor a child's progress and work with a team of educators to improve the achievement of their children. Beginning with Summer Orientation & Placement, Back to School Nights and Orientation meetings at the start of the year and continuing with ongoing opportunities for parents to visit the school and tour the campus, parents, family members, and community members are provided with firsthand knowledge of their student's learning environment, which assists their understanding of Wayne STEM Academy's expectations. Parent Teacher Conferences also offer an opportunity for parents to get information on academic content standards, student academic achievement standards, and how to monitor their child's progress and work with educators to improve achievement. Further, Wayne STEM Academy provides a handbook for parents as a guide. Accessible from the school website, the handbook spells out the specific responsibilities of each stakeholder in the child's education, as well as the means by which those at home can address concerns with the school staff.

Wayne STEM Academy provides materials and training to help parents, family members, and community members work with their children to improve achievement, such as literacy training and

## **Title I Parent & Family Engagement Policy**

using technology, as appropriate, as well as foster parental involvement. At Summer Orientation & Placement and Back to School Nights at the beginning of each school year, suggestions and guidance are provided to families on how to support their students with homework completion and how to create a home environment for students that is conducive to their concentration. Parents are provided with resources to help work with their children to improve achievement through our digital classrooms. Finally, Wayne STEM Academy coordinates and integrates parent involvement programs and activities that encourage and support parents in more fully participating in the education of their children. The school provides families with information about various community events in which they may be interested in engaging with their children, as well as disseminating information about positive after-school and summer options for students to participate in.

**(E) use the findings of such evaluation in (D) to design evidence-based strategies for more effective parental involvement, and to revise, if necessary, the parent and family engagement policy; and**

All feedback and findings that are collected through surveys, meetings, and other communications with parents and families are collected and reviewed extensively by Wayne STEM Academy's leadership. The leadership analyzes the findings closely for trends and for suggestions from our families that could lead to programmatic change.

In the event that trends identify a particular area that our parents and families have flagged as a boundary to involvement or an opportunity to improve Wayne STEM Academy's program, the school leadership will conduct further investigation into the matter to find out: 1) what other high quality educational programs are doing and what research-based best practices include; 2) what our options are for revision (particularly in areas in which the feedback pertains to a compliance-related matter); and 3) seek out additional parent and family feedback about the particular matter in question (through online surveys, through parent meetings, etc.). Based on the findings from this diligence, the school is able to determine whether or not possible changes to the program are in the best interest of the majority of our students, parents, families, staff and other key stakeholders, or whether small adaptations may be made to accommodate more of our stakeholders without causing exclusion for others.

**(F) involve parents in the activities of the school, which may include establishing a parent advisory board comprised of a sufficient number and representative group of parents or family members served by the school to adequately represent the needs of the population served by the school for the purposes of developing, revising, and reviewing the parent and family engagement policy.**

At Wayne STEM Academy, we convene annual public meetings to inform our stakeholders about Title I and their right to be involved. Parents, family members, and community members are invited to attend Wildcat Chats, Summer Orientation, Back to School Night, or an Orientation event for each grade level

## **Title I Parent & Family Engagement Policy**

in the first month of school, in which they hear an overview of the school program. These annual meetings take place at the school and all parents, students, and other relatives are invited and encouraged to attend through written invitations, flyers, email reminders, and follow-up phone calls. During this time, parents and families have an opportunity to ask questions about the program, to meet our staff, and to view the work of the Title I students. In addition, new students and parents are also involved in initial enrollment meetings with the school principal or designated school administrator, and attend a New Student Orientation before school starts.

From these annual meetings, Wayne STEM Academy maintains on file, at a minimum: documentation of parental feedback and/or evaluation in the form of sign-in sheets and minutes from the presentation/meetings; copies of any relevant presentations; and replicates of flyers, website announcements, message recordings, and/or other advertisements.

During every student enrollment and at Orientation, parents, students, and staff jointly sign a commitment to excellence letter agreeing to our mission and goals. The commitment spells out the specific responsibilities of each group. For example, staff members commit to being available for school work help via our digital classroom and classroom communication outlets daily, the student commits to completing all his or her schoolwork, and the parent/family member commits to reviewing and supporting completion of school work, carefully reading all correspondence sent home, and attending school events and parent meetings.

To ensure effective communication with our families around opportunities for involvement, information related to school and parent programs, meetings and other activities is sent to parents in a format and in a language the parents can understand. Wayne STEM Academy makes sure that all parent letters are reviewed by multiple staff members to ensure that the language and format are accessible. Whenever parent meetings are used to disseminate information, the focus of the meeting is to make the information as engaging and understandable as possible. In all parent meetings there are numerous opportunities for parents to ask questions and speak to staff in a more comfortable one-on-one situation.

Wayne STEM Academy further invites its parents and family members to become part of the parent organization known as The Squadron. This group brings together those family members who specifically want to find additional ways to get involved with Wayne STEM ACademy and to positively support our students, families, and staff members through their efforts.
